- 10. Absorbent cleaner (Host®, Capture® or Dri-Matic®)

CLEANING AGENTS FOR SPOT REMOVAL

DETERGENT SOLUTION Mix one teaspoon of clear dish washing liquid or detergent powder (containing no bleaches or strong alkalies) with a cup of warm water. This solution must be well rinsed with clear water.

ABSORBENT CLEANERS Host, Capture, or Dri-Matic.

Warnings:

- Some chemicals are hazardous (corrosive, flammable, toxic, etc.) and should be used with great care, strictly in accordance with their use and safety instructions.
- When applying Dry Spot Remover #2 or other solvent-containing products, have the work area well ventilated.
- Do NOT apply stain repellent treatments which contain any silicone because they tend to accelerate carpet soiling. Unique will not accept complaints where such treatments have been used.
- Always pre-test a cleaning agent in an inconspicuous place, such as under a piece of furniture or in the corner of the room, to insure that it does not remove color.
